language in urging the Mexicans to make haste to prepare to meet the American forces.

From the same source it is learned night at Cananea was more violent than was indicated by the first reports. Many

mas indicated by the first reports. Many Americans were at a dance and these were herded to their homes like cattle. Others were stopped on the street by armed guards, who menaced them with pistois and rifies while they searched them for arms. A number of shots were fired at the homes of Americans. Armed guards stood watch over the homes of many throughout the night.

There are approximately 650 Americans in Cananea, according to information here. The problem of getting them out of Mexico without creating more bitter feeling among the Mexicans is a trying one. The departure of the Americans would mean the closing of the smelter and mines of the Cananea Consolidated Copper Company, the Democrata Mining Company and other smaller properties and the paralysis of a community of 20,000 persons.

### Sends Guard for Americans

George Kingdon, general superintendent of the Cananea company, and W A. Julian, American consular agen there, reached here last night by auto mobile and immediately went to Agus Prieta to confer with Gen. P. Elias Calles, military commander of the state.

After an hour's conference with Gen. Calles, Messrs. Kingdon and W. A. Julian, consul, announced that Gen. Calles had guaranteed the Americans at Cananea the fullest protection. In order to enforce this, Calles sent a telegram ordering the 6th Battalion of Sonora Infantry, under command of Col. Jesus Aguirre, to proceed to Cananea and facilitate the departure of Americans who desired to leave the camp.

American refugees arriving by automobile from Cananea last night reported that some of the company foremen who tried to leave the camp were turned back by Mexican guards.

Every one who can obtain a conveyance to the border, and is allowed to leave by the guards, was getting away from the camp as rapidly as possible. The situation last night was given added gravity by the report that a large party of Yaqui Indians had been located eixty miles south of Douglas.

### When Department Pay Stops.

When they break camp and actually become part of the military service of the United States on active field duty then their pay as government clerks

must stop unless Congress makes some provision in their favor.

Apparantly few if any of these government employes who are in the militia have applied for leave. That is not required of them, and would serve them no purpose. They have responded to the call without notification to their superiors in the civil service. This is what is expected of them.

In the region where the order is effective there are a dozen or more hig ranches owned and operated by Americans.

Mexicans Evacuate Piedras Negras.

What appeared to be an evacuation by Mexican troops of Piedras Negras, opposite Eagle Pass, has begun, according to reports received by Gen.

Battalion, who is employed in the office of the Secretary.

There are about the same number of National Guardsmen on the rolls of the Department of State, the most prominent being Maj. W. A. McCathran of the 3d Infantry. Nearly a dozen of the more youthful employes asked for permission to enlist in the guard for service against Mexico.

So far as reported there are but three employes of the Navy Department called out for military duty.

In each department it was stated that all who are called out for military duty will be protected in their departmental positions, and that it was probable that the cabinet will decide on the issue of an elastic furlough.

### Question Considered in Cabinet.

The cabinet today gave serious con sideration to the question of the attitude to be taken toward government clerks who are members of the National Guard, particularly in the District, and who are compelled to answer to the call of the President for service in Mexico

or on the border.

No definite agreement was reached, but it was practically agreed that cabinet officers will consider the matter from all sides and will work out a plan

of relief.

There was an informal but unanimous understanding that government clerks who go away with the District and other regiments and units will not lose their positions upon their return, but will be protected. The President, it is stated, let it be known that he did not want any man to lose his place because of his military connections.

### Matter of Salary a Problem.

The most serious problem, however, a that of the salaries of men having dependents to care for in their absence in Mexico, and it was suggested at the cabinet meeting that legislation be submitted to Congress directing the payment of at least 50 per cent of the salaries of those who have been called to the colors. Secretary Lane has put forward such a plan. The idea advanced by him is that the clerks of the Interior Department who do not go to Mexico will work overtime to take care of the duties of the absent clerks, and that Congress ought to authorize the payment of a goodly portion of their salaries to their families.

Several urgent cases have already been dependents to care for in their absence

payment of a goodly portion of their salaries to their families.

Several urgent cases have already been presented to the White House. One man, a clerk of the Post Office Department, has a wife and baby with others dependent on him. His salary is \$1,200 a year. The dependent ones will be without sufficient support during his absence. His wife was formerly a government clerk and he has asked that an executive order be granted by the President permitting his wife to do his work while he is away. So far all the cases taken to the White House have been referred to the proper departments for action, but the fact that the President will stand by the clerks will be sufficient, it was believed this afternoon, to guarantee some sort of an arrangement that will bring relief.

As the Treasury Department, which handles the government's money and is arbiter of all questions of expenditure, and is a sort of monitor for the other departments in questions of expenditure, and is a sort of monitor for the other departments in questions of personnel, has determined upon this course, it is predicted by many officials that the other departments and offices of government will follow suit.

A canvass of the War Departments.

A canvass of the War Departments to day showed that about twenty-four of its employes were affected by the calling out of the District National Guard for Mexican service. The only officer in the list is Capt. Epps of the 1st Separate Station, who is employed in the office of the Secretary.

The only persons around the armories who seemed to be worried were mothers and sisters, and even wives, of some of the men. As on yesterday, they made pleas to the officers for the remainders of some of the men, but the officers can do nothing. The only hope of some of them is a rejection under the physical test, when it is given at Fort Myer when the troops get into the absolute time, and then there will be vacancies for the promotion of men who have shown a liking for military duty and ability to command men. The increase of the companies to war at strength also will add a number of promotions to sergeants and corporals. Officers and company clerks were at work with their records early today and getting their field desks packed for transportation to Fort Myer. The movement of the equipment was started this morning at 8 o'clock, when twelve trucks appeared at the various armories for the work. There will have to be tenting, field desks, officers' impediments and transfers.

The actual work of making camp—that is, the digging of the trenches, the setting up of sleeping, cook and mess tents and all of the other features which will go to provide for the comfort and well being of the troops—will devolve upon the units for which their use is intended, he explained.

Warning to De Facto Government of Mexico May Reach Capital Tomorrow Morning.

nent to the de facto government of United States troops and warns Carrange that grave consequences will ensue if he carries out his threats against the United States, it was said today by a Mexican embassy secretary, probably will reach Mexico City tomorrow morn

No certainty that it will reach Mexico City by tomorrow morning exists, however, as that question, it was pointed out, is "up to" the telegraph companies

handling it. The note, which was handed early bassador designate of the de facto Mexican government, is being handled with expedition. No delay was occasioned by translating ft, as it is being transmitted to Mexico City in English, for translation there. Several hours will be necessary for that work in Mexico City when the note arrives.

File Copy Retained Here. The only thing that impeded its im mediate transmission from the embassy was the necessity for copying it so that a file copy might be retained here. Copies of the note were sent by the State Department to all the European and other foreign embassies and lega-tions in Washington, for their informa-

Mexico City.

The note, which leaves here late this afternoon, is transmitted by land wire to Galveston, thence by cable to Vera Cruz, and thence by land wire to Mexico City.

### SUSTAINED FOR SECOND TIME.

Arkansas Supreme Court Approves State-Wide Prohibition Act.

LITTLE ROCK, Ark., June 20 .- The Arkansas supreme court for the second time has sustained the validity of the state-wide prohibition act. The case was that of Charles Miller of Lafayette county, who was convicted of selling liquor and sentenced to serve one year in the penitentiary, the only penalty permissible under the law. The appeal alleged that the prohibition law is unconstitutional, because it denies to the court the right to suspend sentence after conviction. The su-preme court yesterday held that the legislature had the right to enact such a law because there is no provision in the state constitution forbidding such legislation.

### FOR AEROPLANE SQUADRON. Aero Club of America Asks Militia-

men Be Organized.

"It is indispensable that this contradiction between the assurances of friendship on the part of Washington and the acts of suspicion and distrust and aggression on the part of the miltary authorities should disappear.

"The people and government of Mexico must know what to expect and wish to be sure that the assurances so many times expressed by the government of the United States correspond really to its sincere desire for friendship between the two countries, friendship that should exist not only in the statements, but which should be crystallized into acts.

NEW TORK, June 20.—The Aero Club of America telegraphed to Secretary Baker of the War Department a request that the National Guard officers who ice as army aviators be organized as an aeroplane squadron. Thirty men have been undergoing training, but with the call for mobilization, have been ordered back to their original duties with their regiments. The New York men now included in the list have four aeroplanes, and twelve of the NEW YORK, June 20 .- The Aero Club imes expressed by the government of the United States correspond really to its sincere desire for friendship between the two countries, friendship that should exist not only in the statements, but which should be crystallized into acts.

"The Mexican government invites the government of the United States to bring about a cessation of this situation of uncertainty between the two countries and to support its declarations and assurances of friendship with real and effective acts which shall convince the Mexican people of the sincerity of its proposals. These acts, at the moment, cannot be other than the
